Importance: High

BethAnne,
in this application, applicant filed a petition for unintentional delay claim for priority which, according MPEP 1002.02(b) requires a petition if the app. was filed on/after Nov. 2000. However, this application was filed in April 2000, and therefore does not require a petition. The examiner is treating the claim accordingly, however, would you please lift the petitions flag (535) so that we can mail the action in the TC. Thank you,

Brian Johnson
